	HelloLife program	Income annuities	Lifetime income benefit (LIB) (GMWB)	Systematic withdrawal plan (SWP)/registered retirement income fund (RRIF)	Quadrus Monthly Income Fund
Ideal client?	 Retiring in the next 5 -10 years. Needs predictable, guaranteed income. Doesn't want to actively manage investments. May not have guaranteed income from a company pension. Is looking to supplement existing sources of guaranteed income such as a pension. Is looking for investment growth. Wants to protect retirement income from market fluctuations. Wants access to investments when needed. 	 Needs predictable, guaranteed income. Nearing retirement or retired. Doesn't want to actively manage investments. May not have guaranteed income from a company pension. Is looking to top-up existing sources of guaranteed income such as a pension. Isn't looking for investment growth opportunities. 	 Needs predictable, guaranteed income. Nearing retirement or retired. Between the ages of 50 and 90. Doesn't already have a major source of guaranteed income (from government benefits, company pension plans or life annuities etc.). Ability to access cash in case of an emergency. Looking for the opportunity to participate in the market. 	 Is seeking potential for growth. May require access to the principal on the investment. Is comfortable with market exposure. Already has sufficient guaranteed income to cover their fixed expenses. Prefers to have access if needed and not locked into an income annuity. 	 Is looking for capital appreciation and income. Has a low to moderate risk tolerance. Is looking for a medium-term investment. Desires a regular monthly cash flow.
Description	HelloLife is an all-encompassing program that sets clients up with a spending plan that lasts throughout their retirement years. The program is a mix of annuities for certainty and security and segregated funds for potential growth and flexibility.	Annuities are a reliable income solution that provide a continuing and guaranteed cash flow for life or for a fixed term. They can only be offered by a life insurance company. The different types of annuities available include: • Term annuities • Lifetime annuities Life annuities can be divided into: • Single-life annuities • Joint-life annuities	A segregated fund lifetime income benefit option offers guaranteed income for life while still providing the potential for growth of the investment. Similar to an annuity, a lifetime income benefit is only available through life insurance companies.	A systematic withdrawal plan or registered retirement income fund enables investors to redeem a pre-defined amount from their investments (segregated and mutual funds) at regular intervals. Clients' withdrawals may outpace their SWP depending on the growth in the plan and the amount of withdrawals.	The Quadrus Monthly Income Fund (London Capital) pays income 12 months a year with a distribution of four per cent annually. This fund may be of particular interest to clients who currently hold maturing GICs or want their investments to pay regular income while understanding the impact to their capital if the rate of return is less than four per cent.
