GREAT REASONS to Choose Equitable Life® for Large Case Clients

1 We are very active in the large case life insurance market in Canada. We have deep experience across all facets of our business to deliver a first in class experience. Our largest contracts issued in 2022 were more than \$1,000,000 premium per policy.

2 As a mutual, we provide financial security differently by focusing exclusively on our clients. Our mutual status allows us to deliver personalized service, security, and wellbeing—with over a century of superior client experience and expertise. Our 100% Canadian-based employees are deeply knowledgeable in the Canadian insurance marketplace.

3 We have a dedicated large case team and process to help ensure an excellent advisor and client experience.

4 Equimax, our participating whole life product line, is very competitive and recently underwent an exciting update.

5 Our maximum ultimate NAAR is over \$110,000,000.

6 Our internal retention is \$6,000,000. This is a great option for meeting your wealthy clients' capacity needs.

7 Our LICAT ratio—a measure of a carrier's ability to meet its promised obligations—is industry leading at 167%.

8 We have an industry-leading participating account rate of return. Our participating account fund has been open—and never closed—since 1936.

9 Our dedicated field team of tax and estate planning and advanced case consultants are here to assist you.

10 As a mutual company, we are not driven by shareholder pressures for quarterly results. This allows us to focus on management strategies that foster prudent long-term growth, continuity, and stability. We are dedicated to meeting our commitments to clients—now and in the future.

All numbers quoted above are as-of Q2 2023.

Our Dividend Scale Interest Rate and Participating Account Rate of Return

	Average Returns	
	Equitable Life Par Account Return	Equitable Life Dividend Scale Interest Rate*
5 Years	6.05%	6.17%
10 Years	6.51%	6.42%
20 Years	6.87%	7.05%
30 Years	7.47%	7.86%

*The dividend scale interest rate reflects the investment performance of the participating account, which is smoothed to reduce volatility. The dividend scale interest rate is just one factor used to determine the dividends paid in a participating policy. Dividends are not guaranteed and are paid at the sole discretion of the Board of Directors. Past performance is not indicative of future performance.
