

Blue Cross Health™

A PLAN THAT'S RIGHT FOR YOU

Complete Health Plan

FLEXIBLE. PERSONAL. AFFORDABLE.

Available to residents in Quebec

Mix and Match Benefits

Complete Health is a flexible plan that allows you to choose the benefits that best meet your needs and budget. Your plan can also change as you go through life's stages. Start by picking one of our three Health modules and then any of the other modules you want.

Your health and wellness is important to us

Complete Health includes a comprehensive wellness program. inConfidence is a confidential assistance program offering one-on-one counselling and support 24/7 over the phone or in person, for you and your eligible dependents. We also offer a well-being web resource to help support you with work, life, health, family, or money.

Comprehensive coverage for health practitioners

We offer more types of health practitioners to help you stay on track. Whether it's coverage for a Dietitian, Occupational Therapist, Audiologist or Massage Therapist, we have you covered. We also offer coverage for Psychologists, Social Workers or Clinical Counsellors. In further support of your mental health, our plan includes internet-based Cognitive Behavioural Therapy, which is an approach to psychotherapy that helps in developing coping strategies to address negativity and anxiety.

No overall maximums

Some of our benefits do not have overall maximums. With our extensive dental coverage, the Essential and Enhanced modules do not have a maximum on fillings, extractions and root canals. No one can predict the future and we want to be there for you.

Did you know?

- Without health insurance, you are accepting the financial risk of expensive medical treatments if you get sick.
- It's much cheaper and easier to get personal health insurance when you're healthy.
- When your children outgrow your plan, they can get their own plan without a medical exam.
