AT DEATH

If the insured amount has not already been paid out, all payments made since the coming into force of the insurance policy will be reimbursed in the event of the child's death if it occurs before the policy expiry date. Reimbursement cannot exceed the insured amount and excludes amount paid monthly for additional benefits, as applicable.

HEALTH OPTION... FOR ADDED COVERAGE

If you choose this option, you may be reimbursed a percentage of the amounts that you must pay as of the 15th policy anniversary. The premium reimbursement percentage will have reached 100% as of the 20th policy anniversary. The contract will then be terminated.

Also, you are no longer required, under the Health Option, to pay the monthly amount on the 20th policy anniversary. For example, if your child is age 5 at the time of coverage under the Second Chance for Children policy, no further payments are made when he or she turns 25 and coverage can be maintained until the age of 75!
